

2021 CSA Waterfront FAQs (updated July 2021)

While the summer of 2020 saw a pause in CSA programming, the CSA's waterfront continued to stay busy as a place to enjoy outdoor activities while staying socially distanced. The Waterfront Committee has prepared this FAQ document to help answer common questions about policies and procedures, hoping to provide everyone with enjoyable opportunities for recreation on CSA's Crystal Lake beach.

The beach

- What should I do with my trash? Please put trash **INSIDE** the trash barrels. Disposable diapers must be taken back to your cottage.
- Can I stash my beach chair on the beach? **YES**, but make sure you aren't obstructing any path ways. Please pick up all of your belongings before you depart at the end of your stay.
- Can I bring my dogs or other pets on the beach? **NO** - no kidding!
- Can I consume alcoholic beverages on the beach? **NO** alcoholic beverages, illegal drugs, smoking, marijuana or intoxicants derived from marijuana are allowed on the common property Crystal Lake and Lake Michigan beaches – this also includes all CSA docks and the fire pit near the Crystal View.

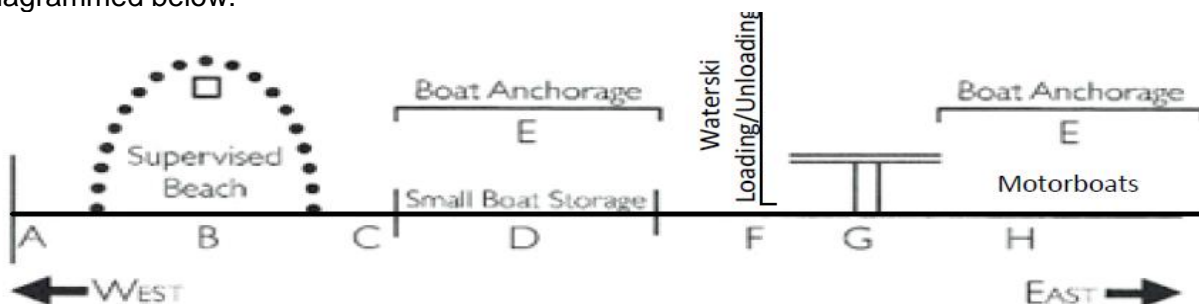

Swimming

- How do I report a case of swimmer's itch? The Crystal Lake Watershed Association has been successful dramatically reducing this condition, and partners with the CSA to collect data. If you have a case to report, please go to the CLWA's website at www.crystallakewatershed.org and look for the reporting tool on the left-hand side of the home page.
- Can I paddle a kayak or SUP in the CSA swimming area? **NO**, but the lifeguards have approved craft they use inside the lifeline. CSA paddleboards are available for use inside the lifeline when the lifeguards are on duty. Please check with a lifeguard before using and return when done.
- Do I have to swim inside the lifeline? **YES**, for your own safety.
- Can I jump off the lifeguard stands? **NO!**
- Can I jump and dive off the rafts? **YES**, you can jump off the rafts but diving isn't permitted off the raft closest to the beach.
- And, in case you hadn't heard, one at a time on the slide, please!

Boating

The CSA has about 1,400 feet of shoreline along its Crystal Lake beach. This is divided into the areas diagrammed below:

(over)

- Do I need a boat sticker? YES, all boats of any type or size must be registered at the Assembly Office and the CSA boat sticker must be displayed on each boat.
- What if I don't get a boat sticker? The Board of Trustees approved the return of "boat jail," a program begun in 2017, to move unstickered boats to a Permit Detention Area (PDA). Here's how it works:
 - Every Monday a member of the Waterfront Committee will check for boats without the current season's sticker. When the owner's name is clear on the boat, the Managing Director will call that day to give the owner a chance to promptly sticker the boat.
 - Every Wednesday the waterfront staff will move any remaining unstickered boats to the Permit Detention Area (PDA) - located behind the boats, between the tree line and South Shore Road. Owners will be responsible for getting a sticker and moving the boat back. It's easy to stay out of "boat jail" – just purchase your boat sticker and put it on your boat when you bring it down to use it at the CSA's Crystal Lake waterfront!

- Where can I store my kayak, canoe or SUP? Please use the racks provided for these types of watercraft, rather than leaving them strewn on the beach. We have added more SUP and kayak racks in an effort to increase storage capacity.
- Is there an easy way to get my kayak/canoe/SUP to the water's edge? YES, two new paths will be marked in the boat storage area to provide clear passage from the storage racks to the waterline. No watercraft storage will be permitted in these pathways.
- Do I need to wash my watercraft before bringing it to the CSA beach? Watercraft (including non-motorized) **must** be washed prior to being launched anywhere into Crystal Lake if operated in another watershed in the previous 10 days. For more details, go to the CLWA website at <https://crystallakewatershed.org/boat-wash/> to read about this Michigan law. The CLWA's boat wash and launch is located on M-115 at Mollineaux Rd (the address is 5739 DNR Boat Ramp Service Rd, Frankfort). There are other public boat launch sites at the Beulah public beach, Frankfort's Bellows beach, and the ends of Esplanade Ct and Marquette Ct (off M-22, north of the Crystal View).
- How far do I need to pull up my boat from the water's edge? You must pull your boat up at least 6' from the shoreline.
- Can I leave my boat on the CSA beach if I'm not in residence for part of the season? If you won't be using your boat for at least a week, please store it farther up on the beach (away from the water, closer to South Shore Rd) to leave room for boats currently being used.
- Can I rent a boat mooring? CSA moorings are limited and in high demand. Boat owners must be assigned a mooring by the Managing Director and may rent by the week, month or the season. Mooring lines are required and must be rented at the office. Please refer to the current Assembly News for more details about other mooring options.
- Can I rent a space to store my boat at the CSA-owned boat dock? You must apply to the Managing Director for space, which is capped at 22 shore stations. Boat owners must provide their own hoists (shore stations) and pay for their installation and removal each year.

Please abide by the rules ... be safe ... and have fun on the waterfront!
